Mr. Fathers;

In furtherance to my previous missive, I've wanted to ask a question, if I may.

I've been looking into the school; 1950 build, beautiful building! Very prominent location, for certain.

Regarding the updates that you referenced, can you provide me some idea what is needed in terms of updating the existing structure? Again, I've never been inside the school, and I'm not certain might be wanting in terms of facilities, infrastructure, or services.

Thank you in advance of your response!

Yours respectfully,

Todd Gervais
